

## **18th International Conference on Computer Analysis of Images and Patterns**

2-5 SEPTEMBER, SALERNO ITALY

### Proposal for tutorials

The CAIP 2019 Organizing Committee invites proposals for tutorials to be held as side events of the main conference in Salerno, Italy. Tutorials should serve one or more of the following objectives:

- Introduce students and newcomers to major topics of CAIP research.
- Provide instruction on established practices and methodologies.
- Survey a mature area of CAIP research and/or practice.
- Motivate and explain a CAIP topic of emerging importance.
- Introduce expert non-specialists to a CAIP research area.

For the scope of CAIP, please refer to

<http://www.caip2019.unisa.it>

Proposals should contain the following information:

1. The title and a brief description of the tutorial.
2. A detailed outline of the tutorial, including preferred length of tutorial: either 3 hours (half day) or 6 hours (full day). If it is a full-day tutorial, please give a brief justification.
3. Characterization of the potential target audience for the tutorial, including prerequisite knowledge and estimated number of attendees.
4. A description of why the tutorial topic would be of interest to a substantial part of the CAIP audience.
5. A brief resume of the presenter(s), which should include name, title, affiliation, e-mail address, background in the tutorial area, example of work in the area (e.g. publications and/or industrial work).

6. A description of how this proposal relates to tutorials/short courses appearing at CAIP, CVPR and other related conferences within the last three years.
7. Description of and/or links to any planned materials or resources to be distributed to attendees.
8. The name and e-mail address of the corresponding presenter.
